

LCCA FasTrack Modular Railroads are:

- Easy to build
- Easy to setup
- Easy to transport
- Fun to play with
- Your connection to building a rail-roading empire

All are welcome to join the Lionel Collector Club of America's growing FasTrack Modular Railroad (FMRR) Community. The LCCA's website and its LCCA/ Lionel FMRR manual is a one-stop-shop for all of the information you need to build your first module.

Why should I join the LCCA FasTrack Modular Railroading community?

- Module ownership is about taking something small and growing it into something that is much bigger. During LCCA's 2018 National Convention, 15 LCCA members assembled and operated a 40'x60' U-Shaped FMRR capable of operating 10+ trains simultaneously across nearly 500' of linear track. This is a similar methodology that has propelled the NMRA's and T-TRAK modular railroad to be the staples of many train shows.

Module Hardware Kit: LCCA Part MHWK01

Kits and hardware sold on LCCA's Website

Organizations that operate LCCA FasTrack Modular Railroads:

- Kids Run Trains, Chesapeake VA
- Real Rail, Tampa Bay FL
- Kids Creek Railroad, Mystic CT
- East Carolina Railroader, Greenville NC
- Modular Railroad Partners, N. Chicago IL
- T W Trainworx, Dallas TX
- Metropolitan Division of TCA, Greater NYC
- Golden State Toy Train Operators, San Francisco Bay CA

Modules Types:

- 30"x45" and 36"x45" straight
- O72/O84 full corner with 30" edge
- O72/O84 reversible corner with 13" edge
- O36/O48 small radius corners
